

# Eco Drop (ED)

## Gutter Bin® Stormwater Filtration System

### 100% TRASH CAPTURE

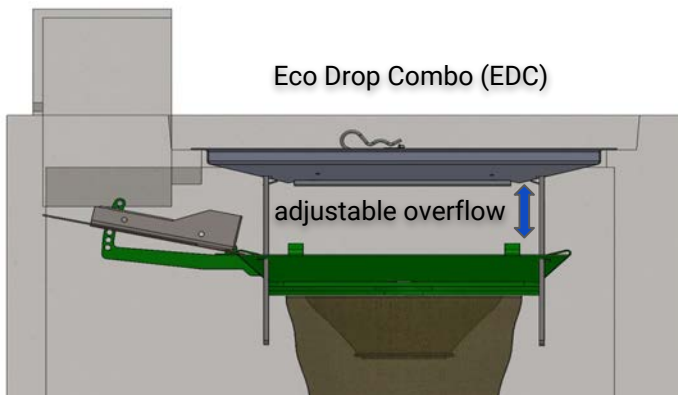

The patent pending Eco Drop and Eco Drop Combo Gutter Bin models provides unparalleled protection and accepts the full line of Mundus Bag™ filtration media.

### Product Highlights

- Flexible design fits under existing storm grate in a drop inlet or combo inlet with bent or flat frame (Type 13 & 16)
- Largest adjustable overflow on the market; meets or exceeds hydraulic capacity of the catch basin
- Weathering steel (A588), stainless steel (SS304) and/or plastic construction to meet local & federal regulations
- HS-20 load rated - installs below existing storm grate
- Easily removed for maintenance, relocation, or TV camera access
- Optional sampling port - can be used for vector control
- Variable depth for deep or shallow catch basins
- Compatible with 9, 12, 14 & 16 inch Mundus Bag™
- Rectangular and round models
- Can be used in conjunction with connector pipe screens (CPS) and automatic retractable screens (ARS)
- Can be used as a pre-treatment solution for subterranean infiltration systems
- 7 year limited warranty

### Installation and Servicing

- 5 minute install - **no** confined space entry, catch basin retrofit, or drilling required
- Servicing performed in 2 minutes or less
- Service interval depends upon climate, pollutant load, & infrastructure constraints
- No special equipment required
